## Who am I?

I'm a man passionate by human dynamics. I love to create spaces that allow for new potentials to emerge. Every day is another step forward in the direction of self-knowledge, harmony and keeping a positive attitude. My thirst for sharing, experiencing and learning is endless.

**My 10 words :** vibration, listen, heart, harmony, joy, thriving, efficiency, sharing, collective intelligence

**My values :** respect myself and others, intensity, empowerment, self expression, impact

## My pledge to Mankind, Society & the World. Why do I do what I do?

Create spaces where people can be themselves and are valued for their unique talents.

## How do I want to help? What expertise do I bring?

My life is centered around self development, awareness and impact.

I had the chance to do formal studies and have different job experiences in Belgium and abroad. On the other side, I became passionate about yoga, coaching, collective intelligence and started many projects around this. This gives me a unique position to make bridges between those 2 worlds and understand what people are going through.

My drive is to use this experience and fresh vision on things to help individuals and organizations transform towards more conscious ways of living.

## What have I realized so far?

I have co-designed a new type of leadership summit in Belgium by LEAD-IN which will blend inspiring thoughts and incorporation work. I'm a Gen T'er which is a network of 100 Belgian young change makers. I'm the co-initiator and carrier of a cycle that brings different generations together to share stories around major topics of life. Through Teams' Connect, I'm inspiring teams to become efficient and fulfilling places to evolve. I'm part of the orientation committee of Deltae which is an organization for 18-35y which want to explore alternative ways of doing things. I'm a Council facilitator and soon trainer, bringing Councils in diverse environments. I co-carried for several editions a coaching cycle to find our purpose in life and acting on it.
