

Pamela Von Sabljar

Global Inspiration &
Noble Purpose Institute

Who am I?

I am deeply devoted to following the process by listening, listening deeply to what's in between us, to what is emerging and to lead and create from there. Listen to what's not always aware or outspoken and yet still fully present between the words.

With my sensitivity I am brailing the field of the group and organisation to facilitate the shift that wants to happen.

I speak what I sense with compassion and clarity in service of the unfolding potential and wished outcome.

My 10 words :

children, nature, deep human connection, systemic change, eros, truth, sea, mystery, movement, laughter.

My values :

pleasure, integrity, wholeness, regenerative, wisdom, edge walking.

My pledge to Mankind, Society & the World. Why do I do what I do?

I believe we are at a point in human history where we as a society either can break through or break down. Our possibility in this transition is to become a regenerative system where thriving and abundance is a core foundation. My passion is to collectively facilitate this shift by hospice what needs to die and midwife the birth of the new. Serving as a catalyst for leaders and organizations to be able to create deeper human connection and supporting them to foster the conditions for emergence.

Where I invite you to investigate, explore your narratives that doesn't serve you anymore and dialoguing, sensing, creating and leading from this ever - emergent edge - which I would call the evolutionary creative impulse of Eros.

My most simple answer to the question why do I do what I do is. - I am being at service by just following my deepest desire, enjoying life to its fullest and as an extraordinary piece of chocolate that is another passion of mine it brings a moment of joie de vie.

How do I want to help? What expertise do I bring?

I have over 20 years experience of leadership, personal development and behavioural science. Throughout my career, I have worked with the business and public sectors as well as private

individuals, specialising in personal-, group- and organisational - development and developed leadership programs in advanced self-awareness and self-leadership camps for youths and a author of several books on self-development, gender equality and pedagogy as well as childrens' books.

As the curious visionary I have found myself the last 20 years on the edge of the emergent future and today it makes me a new breed facilitator working at the evolutionary edge.

In addition to co-hosting the largest global Emergent Dialogue training in the world, I lead Next Level Facilitation masterclasses; hosts training on cutting edge sense-making platforms like Rebel Wisdom, Emerge Network, Foundation of Ekskäret.

I am is also a mentor for new paradigm leaders, Co-Initiator of the Nordic Women's gathering, and a sacred Spanda Tantrika

What have I realized so far?

Through the immense possibility to explore and work with consciousness development for over two decades it has become clear, to support groups to go beyond what separates us to be able to meet the most pressing need on the planet: to nurture a more conscious humanity and a more regenerative world.

BASED

Stockholm Sweden
