

Guibert del Marmol

Global Inspiration &
Noble Purpose Institute

Who am I?

From San Francisco to Mumbai, from the Amazon forest to the European countryside, I live with entrepreneurs who change the world and reconcile the notions of economy, ecology and sense. For over 15 years I directed various service companies operating in Europe and also in the US. At the age of thirty, as a young business leader, a work burn-out dragged me to a hospital bed where I suffered from a very severe condition. Rather than killing me, this test marked the start of a new life, profoundly influencing my life as a man, leading businessman and entrepreneur. This experience altered my concept of the world and, furthermore, enabled me to acquire a very particular experience in the field of interactions between “body and spirit”. Since 2006, I help CEO’s, executive boards, shareholders and family offices to develop a conscious capitalism based on the principles of shared values and noble purpose. I also co-manage the Lunt Foundation that supports social entrepreneurship. Living in Brussels, I’m ac-

tive in Europe, in Asia and in the US. I published two books dealing with individual and collective resilience. Nature is my inspirator, innovation my motor and life my passion.

My 10 words : harmony, serenity, holism, biomimicry, regenerative, next generation, oneness, soul, wisdom & consciousness

My values : respect, openness, transparency, joy, simplicity

My pledge to Mankind, Society & the World.

Why do I do what I do?

Our world is at a crossroad, facing huge challenges but also opportunities. I do believe that in this very moment companies and their “servant” leaders can be agents of change, solving world’s problem, creating value for all and becoming a force for good.

How do I want to help?

What expertise do I bring?

I’m a perspectivist and a « ferryman », helping leaders to define a new destination and to head to it. I work as a mentor, author and speaker specializing in the field of “regenerating” economy and Inspired/Inspiring leadership. My approach merges ancient wisdoms and modern technologies.

What have I realized so far?

I’ve worked with a lot of different organizations. What gave me the most joy has been to turn many of these clients into real friends, all around the world. Everywhere I go, I feel home thanks to this incredible community of agents of change serving the world. I my craziest dreams I never imagined to join one day a group of such intelligent and loving people.

Today, as a former leading businessman I work as a mentor, author and speaker specializing in the field of “regenerating economy”.
