

# Olivier A. Onghena-t Hooft

Global Inspiration &  
Noble Purpose Institute

## Who am I?

A happy man living in and working in and from Brussels and traveling around the globe to help leaders create beauty, happiness and harmony. I enjoy Life with a big L and live it fully.

My energy and drive were boosted through a life-changing accident, through which I realized that meaning and fulfillment in life come from pursuing what one really stands for and what is allowing us to self-actualize.

Living with Luciano Cellura.

**My 10 words :** inspiration, noble purpose, esthetics, the exceptional, Nature, yoga, meditation, spirituality, baroque music, freedom.

**My values :** authenticity, autonomy, excellence, integrity, joie de vivre, serenity, sustainability

## My pledge to Mankind, Society & the World.

### Why do I do what I do?

Inspiring as many leaders as possible to create beauty, happiness and harmony for the progress and well-being of Man(kind), Society and the World.

### How do I want to help?

### What expertise do I bring?

By incorporating the principles of source, systemic thinking, integral philosophy, conscious capitalism, shared value and holistic approach.

By bringing the right balance between the mental, physical, emotional and spiritual.

By linking organizational strategy, leadership and culture with noble purpose, how that drives happiness and performance, who lead to exceptional contributions and results.

## What have I realized so far?

For clients such as Air Liquide, ArcelorMittal, BSH, Brussels Airlines/Lufthansa, GSK, ING, JUMP, Théâtre Royal de la Monnaie, PSA, Shell I did organizational culture transformations, (management) board optimizations, team effectiveness interventions, inspirational leadership sessions, talent management consulting and/or executive mentorings. I have helped individual (business, cultural, political, public) leaders to lead from their true core, teams to come together (again) around what they really stand for and want to achieve, entire organizations (both very small to global) to shift from transactional short term results driven machines to noble purpose driven and shared value thinking inspirational communities. I also connect people to create added value together. I am involved in philanthropy and support several cultural institutions. I lecture at the Free University of Brussels, writes business columns on inspiration, leadership, entrepreneurship, success and purpose, and the initiator of a series of initiatives around business, leadership, mentoring and purpose.
