Global Inspiration &
Noble Purpose Institute

Who am I?

A woman of conviction who runs around the world since I have finished my studies in order to discover it, and especially discover the diversity of people, cultures and experiences.

From selling hectographic duplicators deep down in Amazonia, to negotiating with perfume and cosmetics distributors in Uruguay, Japan, Australia or Sweden, to setting up a subsidiary in the US for a French Decorating Company, the common point has always been the relationship I could develop with people.

My 10 words : freedom, lightness, light, influence, love, inspiration, diversity, collective intelligence, authenticity, pleasure.

My values : freedom, passion, harmony

My pledge to Mankind, Society & the World.

Why do I do what I do?

My purpose is to inspire and transmit my passion for the need to understand the Human Being in order to better work together and bring more harmony and peace in the relationships and in the organization, and therefore a better performance and efficiency.

How do I want to help?

What expertise do I bring?

By bringing my passion, my energy and my convictions in what I do.

By being people and solution oriented in my coaching, facilitations, key note speeches, consulting.

By bringing my deep knowledge in the recognition of personalities (Persona Method).

By designing workshops around the topic of collective intelligence and unleashing people power and responsibility.

What have I realized so far?

For the last 10 years, I have been mainly designing and facilitating workshops worldwide, around the topic of leadership, cultural transformation and collective intelligence for groups from 150 to 10 participants. I also coach senior executives in the transformation of their leadership in order to create a collective intelligence culture within their organizations.
